Year of Claude AI experience

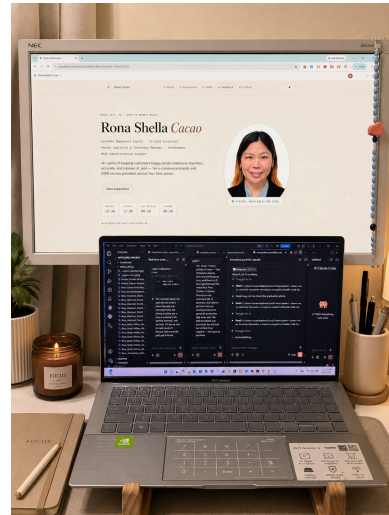

ABOUT

One person, most of your back office.

With over fourteen years spanning customer service, six years of team leadership, two years of bookkeeping, four years of Amazon and Shopify management, a year in NDIS administrative support, a year building AI workflow automations, and a background in virtual assistance and data reporting, I bring a comprehensive skill set to help businesses run smoothly.

I'm passionate about exceptional customer support, leading teams to deliver top-tier service, and keeping the books accurate down to the cent. My Amazon and Shopify experience lets me optimize store operations, while my nursing background sharpens the attention to detail I bring to NDIS administrative work — participant records, funding documentation, and compliant handling of sensitive information.

These days most of my work starts with a question about what shouldn't be done by hand at all. I build AI workflow automations with Claude — carrier tracking pulled into one live view, CRM records that update themselves from the systems they came from, compliance checks that run the same way every time — and I keep a person in the loop wherever a customer would see the result.

*"I just want to say Rona Cacao is
truly amazing. Just had to say
that. Rock star."*

DISC RESULTS FOR RONA SHELLA CACAO

You can be very charming when persuading others in a favorable climate, but also rigid when confronting a hostile situation. Rona Shella, this can be a two-edged sword, especially if you are required to shift gears quickly from charming to confrontational. Those who score like you may balance this trait successfully by defaulting toward the charming side, but still presenting a firm position. You can object to an idea while maintaining a smile.

Rona Shella, the responses you gave on the Instrument indicate that you project an image of openness and friendliness toward others, even while maintaining self-control. You also have an ability to distance yourself from others when necessary. This assists in helping you to be objective in situations when others may be feeling more emotional, either enthused or reticent. You have the rare ability to step back from a situation and view it unemotionally.

You function at a faster pace than most people and tend to be a multi-tasker. This theme emerged in your responses to the Instrument and is a strength that could propel you into a variety of leadership positions, should you choose to follow that path. Due to your rapid problem-solving ability and verbal skills, you are able to juggle many projects without anything hitting the ground. However, be aware that some people who score like you have difficulty saying "no" to requests, and sometimes spread themselves too thin.

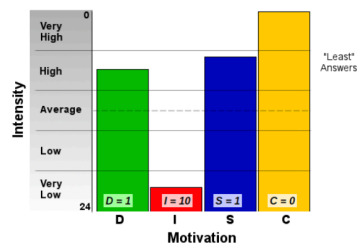

DISC Behavioral Profile – Summary

A SUMMARY OF YOUR REPORT

YOUR BASIC STYLE IS C/SD.

YOUR BASIC OR NATURAL STYLE

Your Basic Style tends to represent your "natural" or "internal" state. It is the set of drives that affects how you view, interpret, and interact with the world. This is the part of you that happens "in your head." In most cases, only you and the people very close to you will see this part of you. The bar graph attempts to represent the relative intensity of each drive in your style blend.

DISC Basic Style – C/SD

Fluent in the platforms your team already uses.

BUILT FOR UPTIME

A home office set up to never miss a shift.

Remote work only works if the connection does.
Here's what's always running in the background.

- ✓ Dual-monitor workstation for multitasking across tickets, tools, and dashboards
- ✓ 16GB RAM laptop, with a second 16GB RAM laptop on standby as backup
- ✓ Backup power supply to keep working through outages
- ✓ Backup internet connection on a separate provider
- ✓ Extra mechanical keyboard & ergonomic mouse for all-day comfort
- ✓ Ring light and headset ready for calls and video check-ins

EXPERIENCE

A track record across support, admin, and the back office.

14+ years across support, leadership, bookkeeping, logistics, and AI-driven automation — several of these roles run concurrently, which is how remote freelance work goes.

Medical Administrative Assistant Sep 2025 – Aug 2026

Remote · Australian NDIS support coordination provider (client name withheld per NDA)

- Managed participant scheduling, records, and NDIS plan goal tracking for a support coordination caseload.
- Prepared and maintained compliant service agreements, invoices, and funding documentation.
- Acted as first point of contact for participants, families, and service providers, coordinating calendars and follow-ups.
- Handled invoicing, payment reconciliation, and reporting across spreadsheets, CRMs, and NDIS platforms.

AI Workflow Automation — Operations Dashboard & Logistics

Project-Based · 2025–2026

Remote · US-based order & logistics / e-commerce client (NDA)

- Built a custom Claude AI-powered operations dashboard for order tracking and logistics oversight.
- Integrated Google Workspace, Slack, and ClickUp to centralize task and communication workflows.
- Connected AfterShip, FedEx, and UPS tracking data into a single live view of shipment status.
- Reduced manual order-status lookups by consolidating tracking across multiple carriers.

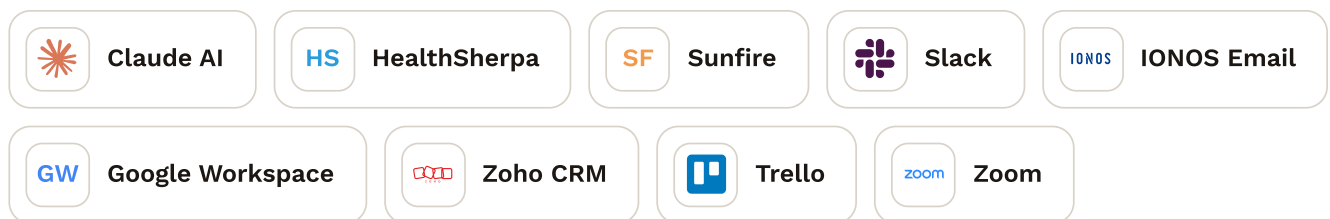

AI Workflow Automation — CRM & Reporting

Project-Based · 2025–2026

Remote · US health insurance agency client (NDA)

- Built Claude AI integrations connecting HealthSherpa, Sunfire, and Zoho CRM.
- Automated repetitive Zoho CRM updates based on client qualification data pulled from HealthSherpa and Sunfire.
- Connected Slack and IONOS email into the workflow for real-time status alerts.
- Generated recurring reports across Google Workspace to track policy and qualification status.

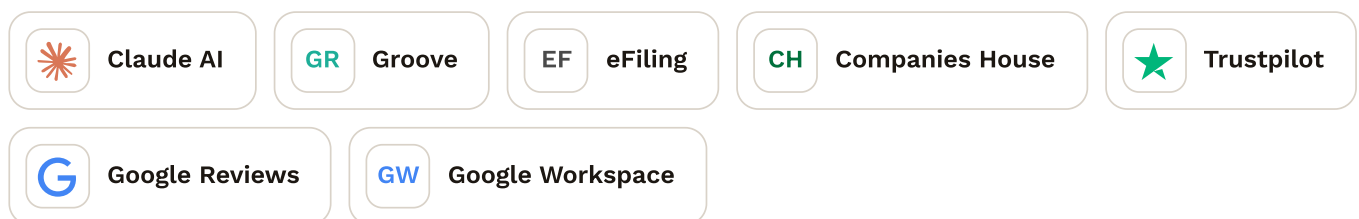

AI Workflow Automation — Compliance & Ticket Handling

Project-Based · 2025–2026

Remote · UK company formation provider (NDA)

- Built a Claude AI integration across Groove, eFiling, and Companies House to support ticket answering.
- Automated compliance policy checks and repetitive company formation tasks.
- Monitored Trustpilot and Google reviews to flag and route customer feedback into the right workflow.
- Coordinated updates through Google Workspace to keep the compliance team aligned.

AI Workflow Automation — Shopify Store Automation

Project-Based · 2025–2026

Remote · US Shopify business client (NDA)

- Built automated Shopify update workflows using Claude AI, reducing manual product and listing maintenance.
- Integrated Magnific AI for image and creative generation into the product workflow.
- Connected Google Workspace for task tracking and reporting across the automation.

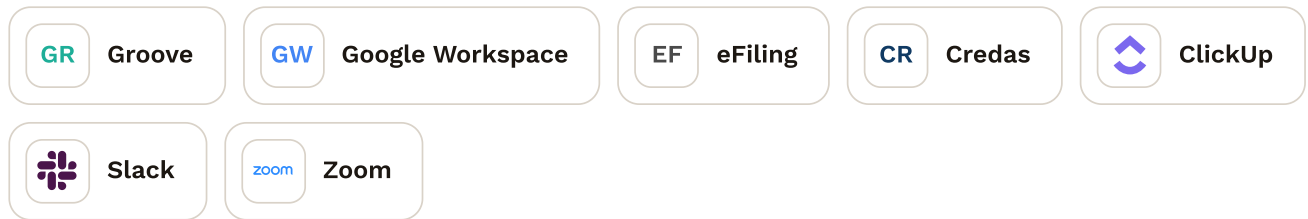

Customer Service & Compliance

Jan 2025 – Dec 2025

UK Formation Company

- Answered emails from customers and formation applicants.
- Checked compliance status and filings against Companies House records.
- Reviewed documents for completeness and compliance with formation requirements.
- Raised invoices and processed UK company formation orders.

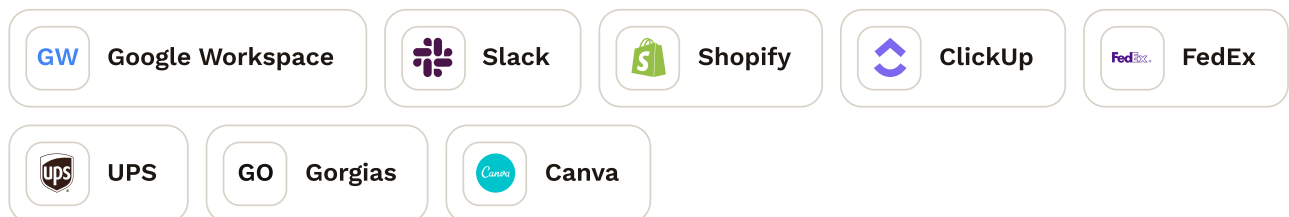

Customer Service Representative

Jan 2025 – Sep 2025

Australian Shopify Business

- Developed and distributed training materials for brokers, enabling quicker onboarding and improved compliance.
- Improved internal workflows by analyzing resource usage, reducing task completion time by 30%.
- Created detailed performance reports, helping leadership identify and address inefficiencies effectively.

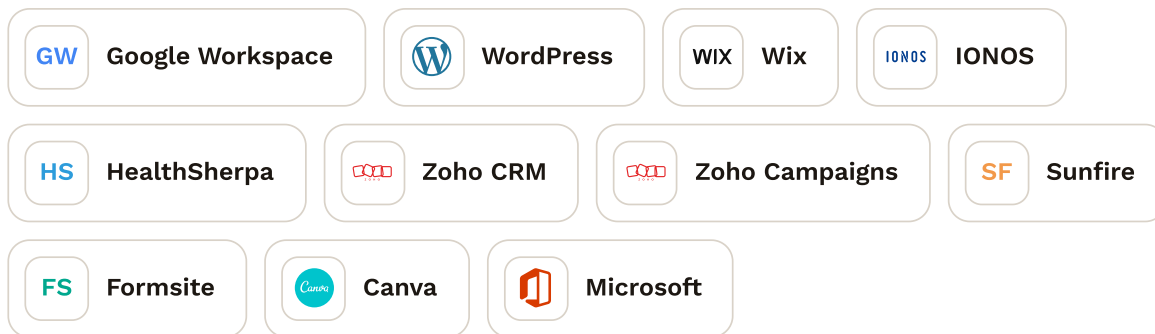

Part-Time Virtual Assistant

Jan 2022 – Dec 2024

Health Insurance Agency

- Delivered world-class customer service by managing orders, returns, warranty claims, billing, and courier issues across global markets with proactive solutions.
- Crafted thoughtful review responses and customer communications that reinforced the brand's friendly, sustainable, and adventure-driven voice.
- Coordinated logistics, warehouse workflows, and developed SOPs to ensure accurate delivery times and consistent service standards.
- Built macros, templates, and process improvements that streamlined operations, strengthened loyalty, and kept the community engaged.

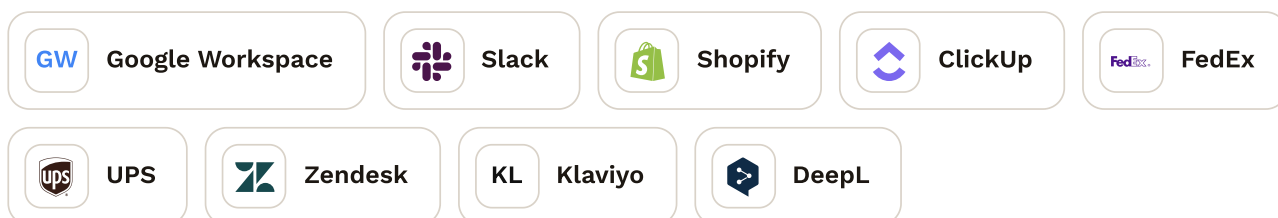

Part-Time Virtual Assistant

Sept 2023 – Oct 2024

Shopify Business

- Updated and optimized product listings in Shopify to improve search visibility, driving a 15% increase in sales.
- Managed inventory levels to avoid stockouts, ensuring smooth order fulfillment and customer satisfaction.
- Collaborated on targeted social media campaigns, resulting in a 20% boost in audience engagement.

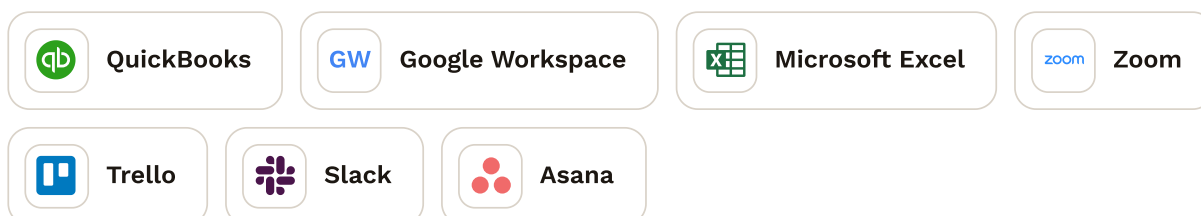

Part-Time Bookkeeper

Jan 2021 – Jan 2024

RGN Associates

- Managed daily financial transactions, including accounts payable/receivable, using QuickBooks, ensuring 100% accuracy in financial records.
- Reconciled bank and credit card statements in QuickBooks monthly, reducing discrepancies and achieving error-free audits.
- Generated detailed financial reports and cash flow statements through QuickBooks, providing management with actionable insights to optimize budgeting.

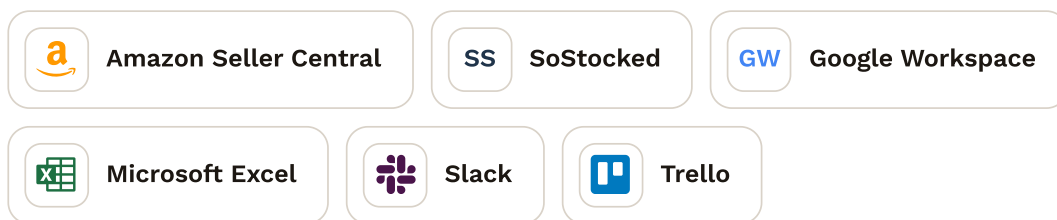

Freelance Amazon Inventory & Logistics Manager

Jan 2021 – Jan 2024

New Age Supply Inc

- Orchestrated seamless inventory audits across multiple warehouses, reducing stock discrepancies by 25%.

- Enhanced demand forecasting accuracy using Amazon Seller Central, leading to a 30% reduction in overstock.
- Built strong supplier relationships to secure cost-effective contracts, improving profitability by 15%.

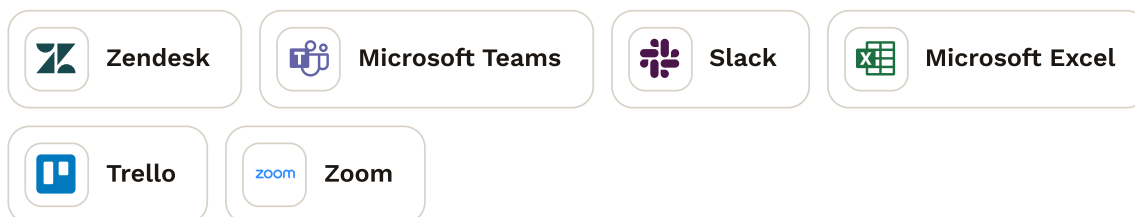

Team Lead, Customer Service

Nov 2018 – Aug 2021

Keywords Asia Pte. Ltd.

- Designed and implemented team performance metrics, resulting in a 20% improvement in overall productivity.
- Handled escalated customer issues with a solution-focused approach, contributing to a 97% issue resolution rate.
- Organized team-building workshops to foster collaboration, boosting employee retention by 25%.

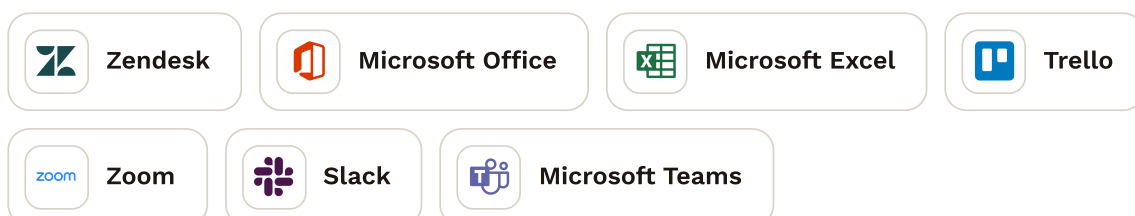

Team Lead, Customer Service

Jan 2016 – Oct 2018

24/7 Customer Philippines Inc

- Guided a global team to exceed key performance metrics, including a 98% SLA compliance rate.
- Utilized data analysis techniques like Root Cause Analysis to identify trends and implement corrective actions, reducing repeat issues by 30%.
- Championed customer-centric strategies to streamline service workflows, cutting response times by 40%.

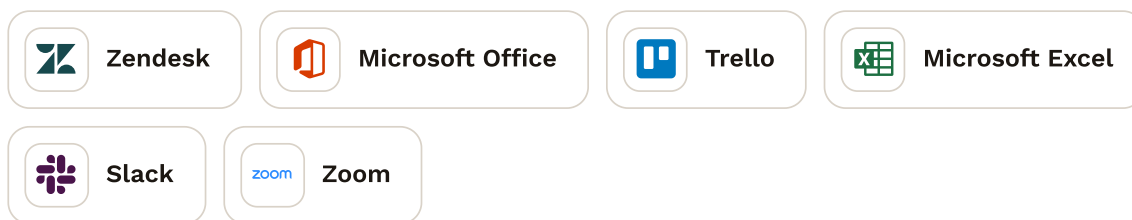

Customer Service Representative

Jul 2014 – Dec 2015

24/7 Customer Philippines Inc

- Delivered consistent front-line customer support across multiple channels while meeting SLA targets.

- Resolved billing, order, and account issues with a focus on first-contact resolution.
- Recognized for performance and reliability, leading to promotion into a team lead role within 18 months.

Customer Service Representative

Jul 2013 – Jul 2014

Keywords Asia Pte. Ltd.

- Delivered personalized customer support across multiple channels, achieving a 95% resolution rate within the first interaction.
- Assisted customers with placing orders, processing refunds, and resolving complaints, earning consistent positive feedback.
- Maintained detailed records of customer interactions to drive process improvements and training initiatives.

SELECTED WORK

What the AI actually does.

Four builds across e-commerce logistics, insurance, compliance and retail.

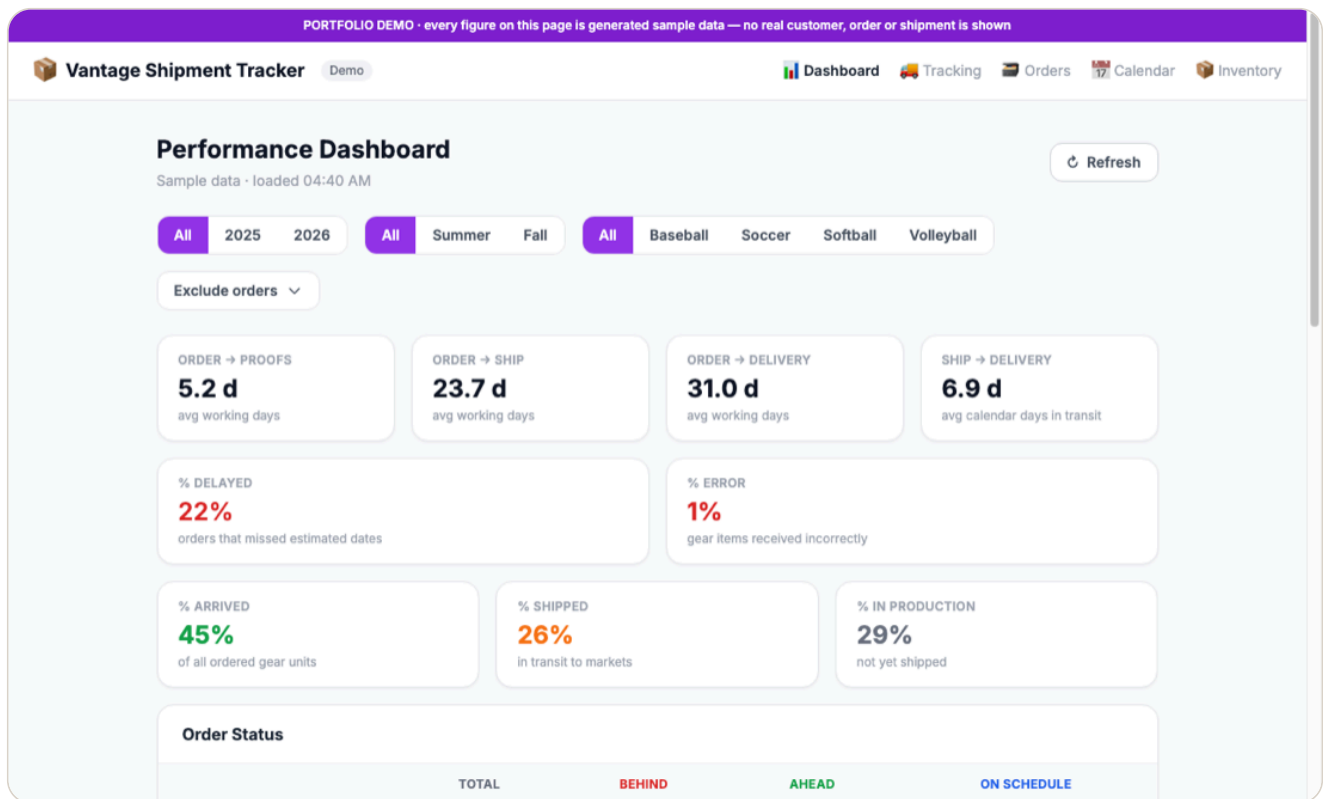

Client names are withheld under NDA, so here is the shape of each system — and one you can open and click.

LIVE DEMO

A shipment dashboard you can actually use.

A working rebuild of an operations dashboard I built for a logistics client: cycle times from order to proofs to ship to delivery, an order status breakdown, and per-market gear tracking with carrier detail on hover. Filter by year, season or sport, or exclude an order and watch every average move with it.

Generated sample data under a fictional brand. No client, order or shipment in it is real.

Order tracking across three carriers

E-commerce & logistics client · US · NDA

THE PROBLEM

Order status lived in three carrier portals — AfterShip, FedEx and UPS — plus the store's own admin. Answering one “where is my order?” meant opening each in turn.

WHAT I BUILT

A Claude-powered operations dashboard that pulls tracking from all three carriers into a single live view, with scheduling and handoffs wired through Google Workspace, Slack and ClickUp.

THE RESULT

Status lookups collapse into one screen, and exceptions surface on their own instead of being hunted down carrier by carrier.

KEEPING IT ACCURATE

Carrier data is shown as recorded, never paraphrased by the model. Anything a customer would see is drafted for a person to approve, not sent automatically.

Claude AI

AfterShip

FedEx

UPS

Slack

ClickUp

Google Workspace

Quote data into the CRM, without re-keying

Health insurance agency · US · NDA

THE PROBLEM

Qualification data sat in HealthSherpa and Sunfire while the record of truth was Zoho CRM, so the same details were typed twice and status changes were noticed late.

WHAT I BUILT

Claude integrations that read qualification data from HealthSherpa and Sunfire and update the matching Zoho CRM records, with Slack and IONOS email alerts on status changes and recurring reports across Google Workspace.

THE RESULT

The CRM reflects its source systems without manual re-entry, and the team hears about a status change the day it happens rather than at the next review.

KEEPING IT ACCURATE

Only named fields are allowed to change, so an unexpected value stops the run instead of quietly overwriting a client record.

Claude AI

HealthSherpa

Sunfire

Zoho CRM

Slack

IONOS Email

Compliance checks that run the same way every time

Company formation provider · UK · NDA

THE PROBLEM

Formation work repeats the same checks case after case across Groove, eFiling and Companies House, and customer feedback arrived scattered across Trustpilot and Google reviews.

WHAT I BUILT

A Claude integration spanning those systems: repetitive compliance form tasks, policy checks run against each case, and monitoring of Trustpilot and Google reviews to flag feedback and route it to the right person.

THE RESULT

Checks are consistent from case to case, and review feedback reaches an owner instead of sitting unread in a feed.

KEEPING IT ACCURATE

Compliance outcomes are flagged for a human decision. The automation prepares and evidences the check — it does not sign it off.

Claude AI

Groove

eFiling

Companies House

Trustpilot

Google Reviews

Listing upkeep and creative for a Shopify store

Shopify business · US · NDA

THE PROBLEM

Product and listing maintenance is an endless run of small edits, and imagery was needed in more sizes and variants than a design turnaround could keep up with.

WHAT I BUILT

Shopify update workflows driven by Claude for product and listing maintenance, Magnific AI for image and creative generation, and Google Workspace for task tracking and reporting.

THE RESULT

Listings stay current without someone editing them one at a time, and creative stops being the thing everything waits on.

KEEPING IT ACCURATE

Generated imagery is reviewed before it goes near a product page, and data changes are batched so they can be checked in one pass rather than trusted one at a time.

Claude AI

Shopify

Magnific AI

Google Workspace

Trello

HOW I WORK WITH AI

The part most people skip.

- ✓ A person approves anything a customer will read. The model drafts; it does not send.
- ✓ The system of record stays the source of truth. AI summarises and routes — it never becomes the place the number lives.
- ✓ Low confidence is a flag, not a guess. Cases the model is unsure about go to a human queue instead of being answered anyway.
- ✓ There are jobs I won't hand to AI. Ask me which ones, and why.

Client names withheld under NDA — happy to walk through any of these in detail on a call.

Books that reconcile.

Two years in QuickBooks Online: daily transactions, bank reconciliation, invoicing, payables and receivables, and the month-end reports someone actually has to make decisions from.

EDUCATION

Grounded in clinical training.

RN

Bachelor of Science in Nursing

University of Pasig, Philippines · 2005 – 2010

Clinical training that underpins the precision, discretion, and calm-under-pressure I now bring to medical admin, patient records, and any workflow where accuracy matters.

ROLE FIT

The same traits, three different job titles.

Virtual assistance, AI-enabled customer service, and medical/NDIS admin ask for the same underlying discipline — just applied differently.

Virtual Assistant

✓

 Organization & multitasking across tools

✓

 Proactive, low-supervision communication

✓

 Fast, structured documentation

✓

 Comfort learning new software fast

Customer Service (AI-enabled)

✓

 Empathy that holds up under pressure

✓

 Fast, accurate typing & response

✓

 Fluency building AI-assisted workflows

✓

 De-escalation without losing warmth

Medical / NDIS Admin

✓

 Precision & a compliance mindset

✓

 Discretion with sensitive records

✓

 Calm, structured under pressure

✓

 Clinical training behind the paperwork

IN THEIR WORDS

What customers say after the ticket closes.

Customer Feedback

MG

Michael

I gotta give it to you. The responses are impeccable. Great service, follow up. I just wanted you know from the other side. No complaints at all. That hammock will be going on a cross country trip in December if everything goes right. I will keep y'all in the loop if that is ok. Thanx again, Mike

MP

Michele

Superstar - thank you so much

NH

Nicole

Hi
Thank you so much! That's amazing! The kids will be stoked! They felt so bad they thought they had broken it by sitting in it!
Thankyou again!

VL

Vicki

Amazing. Thanks | for your speedy response. 😊

Robyn

Thank you so much , you have been so patient and helpful ... look forward to receiving your package.

Dion

Thanks ! your support has been great! This is very much my fault for taking so long to raise the flag. Many thanks :)

Sue

Hi

I'm delighted with the order, which arrived today. Thank you so much for your support & great customer service on helping me with my issue.

Rachael

I got it! Thank you so very much 🙌🙌🙌

Your customer service has been outstanding. My husband will be so happy 🥰

Kate

Thank you for your very prompt reply. Really appreciated.

Oh yay! Thanks so much for your amazing service - it had to be the typo with my email address.....so sorry about that.
Have a fab weekend.

Phil

Thank you

You guys are amazing. Thank you for your quick and positive response.

Matilda

Thank you very much, that means a lot. I'm sure it will still be an awesome gift, you guys are a great company!

Thank you so much for wonderful customer service I received the order today and so happy for the items as gifts .

Susan

Hi

Thank you and the team for being so understanding. I love the values of and I look forward to being a great advertisement for you.

Michelle

Morning

Happy Wednesday!!

Thank you so much for your kind response, and for generously arranging a replacement - I truly do appreciate it.

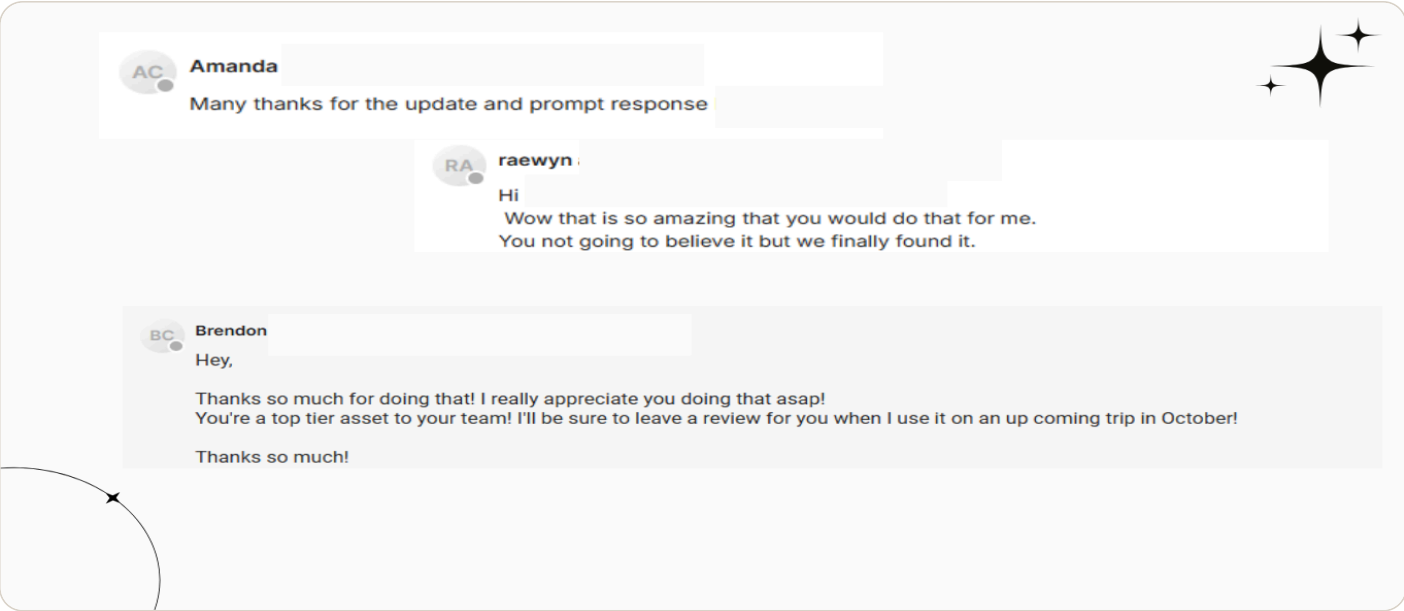

I completely appreciate that the deliveries are not within your control, and that this level of service from the courier would be very frustrating for you too.

Thank you once again, your level of service and understanding has been exceptional and your thoughtful approach has really turned a frustrating experience into a positive one

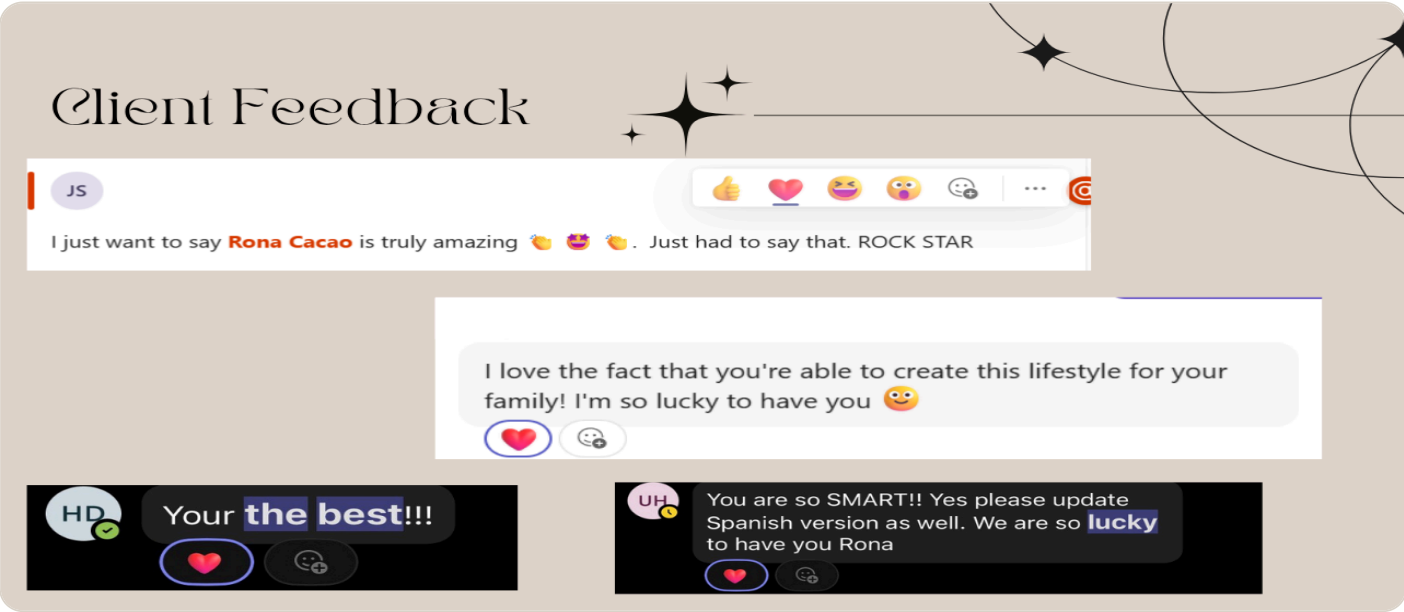

Pamela

Oh that's awesome!! Thank you so very much for your help and prompt response.
Absolutely amazing customer service and support 🌟 Much appreciated
